## LENINE CAST INTO PRISON

London, Oct. 8.—Serious revolution has broken out at Moscow and Nicholas Lenine, the Bolshevik premier and dictator, has been cast into prison, according to an Exchange Telegraph dispatch from Helsingfors today.

A reign of terror at Moscow was reported by the Exchange Telegraph correspondent at Reval. Peters, the chief agent of the Bolshevik chiefs, who had signed away the lives of thousands of suspected bourgeois, is said to have been killed.

News of the uprising was secured in Helsingfors from Moscow by wireless. According to this version Lenine had ordered the arrest of Leon Trotsky, the Red minister of war, but instead of obeying the order the soldiers arrested Lenine himself. Lenine and Trotsky have been in power with headquarters first in Petrograd and later at Moscow since September, 1917, after the overthrow of Kerensky. Lenine was in exile in Switzerland when the Imperial Russian government was overturned, but shortly after the republican government was set up the German government gave him and a party of friends permission to cross that country en route for Petrograd in a "sealed train." Soon afterwards trouble began to develop in Russia.

The first serious counter uprising came in July, 1917. A few months later the radicals seized complete control and since then have been engaged in constant warfare with the Poles, Estonians, Finns, Ukrainians and the allies in Siberia and northern Russia. Continuous successes have been reported for the white armies in Russia during the past few days. Admiral Kolchak's forces are advancing eastward along the Ural mountain front and General Denikin's troops are driving northward from the Black Sea district.

## IRISH PRESIDENT CONTINUES DRIVE TO ENLIST SYMPATHY

Cleveland, O., Oct. 8.—Edward DeValera, Irish president, continued his campaign today to enlist the sympathy of Ohio in the cause of the emerald isle's independence. He went to Columbus this morning.

Last night a crowd which overflowed Central Armory to the extent of 3,000 persons cheered DeValera for 25 minutes.

"The present league of nations is a device to weld the fetters on oppressed peoples," the Irish leader declared saying the people of Ireland would never approve it in its present form.

Michael J. Ryan, member of the Irish-American commission, also spoke last night.

## NORWAY FOLLOWS UNITED STATES INTO THE DRY COLUMN

London, Oct. 8.—Norway has followed the United States into the dry column. In the plebiscite on prohibition the dry message received 406,000 votes against 272,000 votes against it, said a Central News dispatch from Christiania today.

### THRESHER KILLED

Canton, O., Oct. 8.—Howard Newell a thresher living west of Magnolia, died within fifteen minutes after he had been caught in a shredder which was being used in filling a silo. His left arm was nearly torn off and he died from loss of blood. Newell was survived by a widow and four children.

## WILSON'S INDUSTRIAL CONFERENCE ADJOURNS AFTER SHORT MEETING

Washington, Oct. 8.—After a session lasting but 30 minutes, President Wilson's industrial conference adjourned today because there was no work which could be taken up by the conference sitting as a whole.

The adjournment was proposed by Secretary Lane, who stated that he believed more could be accomplished by each of the groups—labor, capital and the public—holding individual meetings and each group getting its work in shape for presentation to the conference at its opening session tomorrow.

"If adjournment is the only way we can get action, I am in favor of it," said Gavin McNab, of San Francisco. "But I announce here and now that I am direct actionist. I want to see something done. I am opposed to a vacuum."

Washington, Oct. 8.—The third day of President Wilson's industrial conference opened today without the delegates knowing where they are going or how they are going to get there.

"Just fiddlin' round," said Michael Tighe, of the labor group, who also is president of the Amalgamated Association of Tin, Iron and Steel Workers, whose members are on a strike in a dozen steel centers throughout the country.

Across the aisle from Tighe sits Elbert H. Gary, head of the U. S. Steel Corporation, against which the strike is directed. Figuratively they sit close enough together to nudge each other; Judge Gary calls him "Mike," and they smile at each other. But that is all. Judge Gary is representing the public in this conference.

Representing the same public is John D. Rockefeller, Jr., directing head of the Standard Oil Company, and its many subsidiaries. Occasionally he chats amiably with his fellow delegates across on the labor side of the hall. L. E. Sheppard, one of the railway brotherhood chiefs, even poked a forefinger into Mr. Rockefeller's immaculate shirt bosom to emphasize the story he was telling him. But that is all. Mr. Rockefeller represents the public. The public is interested in labor's wants. So far neither Mr. Rockefeller nor Judge Gary has raised his voice in the conference except to vote "yea" and "nay" on minor questions of organization. Mr. Rockefeller in the two days of the conference has sat most of the time with a top coat held across his knees so he can leave the minute the adjournment is taken.

The two days of the conference have developed the spokesmen for the representatives. Samuel Gompers' deep bass boomed out from the extreme right where labor sits. On the extreme left is Frederick P. Fish, Boston attorney, late chairman of the National Industrial conference board, who to date has done most of the speaking for the so-called capitalists of the house. In the center section where sits the public, the speaking has been divided among John Spargo, Socialist; Thomas L. Chadbourn, a New York broker, whose friends say he is a "radical," and Gavin McNab, of San Francisco. Mr. McNab has raised his voice often in favor of "getting to work and going somewhere." John Spargo has fought for anything which most of the other delegates are against.

## AMERICAN LEGION OPENS CONVENTION

Columbus, Oct. 8.—At the opening session of the State Convention of the American Legion here today, delegates will be chosen to the national convention, which will be held in Minneapolis. Governor Cox will welcome the delegates in behalf of the state and Mayor Karb in behalf of the capital city.

The principal address tonight will be given by former Senator Luke Lea, of Tennessee, who served as an officer in the overseas forces.

## TROOPS WILL LEAVE BALTIC

Copenhagen, Oct. 8.—Official announcement was made in Berlin that the appeal to the German troops to withdraw from the Baltic, as demanded by the peace conference, has been successful, said a dispatch from Berlin today.

Several transports soon will be en route for Germany, it was stated. General Von Der Goltz, reported yesterday to have joined up with the Russians, was said to be in command of the withdrawals.

## FIFTY THOUSAND LONGSHOREMEN GO OUT ON A STRIKE

New York, Oct. 8.—Between 50,000 and 60,000 longshoremen went on an unauthorized strike today and as a result shipping is tied up at many points. Several piers are congested with freight and several ships were forced to postpone their sailings.

John Reilly, president of the New York district council of the National Longshoremen's Association, was badly beaten by strikers this morning when he tried to induce some of them to return to work.

## GREATEST AIR DERBY IN HISTORY NOW IN PROGRESS

Mineola, L. I., Oct. 8.—One of the greatest aviation races in the world's story—to San Francisco and return, was started at 9:13 o'clock this morning. Second Lieut. J. D. Machle in a DeHavilland Four was the first to leave Roosevelt field. He carried Sergeant Jessie D'Acclure as a passenger.

Following the departure of Machle, the other contestants got away in rapid succession. Assistant Secretary of War Crowell acted as the official starter, but there was no ceremony. As soon as they left the ground the aviators started in a north-westerly direction, hitting up a terrific pace. Some of the machines were traveling at the rate of 150 to 200 miles an hour before they were out of sight. They quickly climbed to a great height.

The first contestant compelled to drop out of the race was Second Lieutenant McDonald, whose motor developed trouble.

## FINE ATTRACTIONS ON STAR COURSE

Unusual interest has been manifested in the exceptional quality of attractions provided for this season's Star Course, which will be managed by the Xenia Social Service League.

The course is to open on Tuesday evening, October 21st, by the celebrated Bertha Farmer Company. This number will be a treat that the music lovers of Xenia will enjoy in this opportunity to hear one of America's greatest lyric sopranos. Bertha Farmer scored great commendation by her singing in Paris, Brussels, and London. Her tour as prima donna of the San Carlos Grand Opera Co., brought her the admiration and applause of tremendous audiences in almost every large city in the United States. For her appearance in Xenia, she will be ably assisted by an excellent violinist, a cellist, and a pianist. Fortunate indeed, that this community may hear this attraction, which is one of the most expensive in the whole lyceum field.

The Bertha Farmer Co., will be followed, a little later in the season, by "Burns of the Mountains," that much heralded pioneer in the rejuvenation of the Kentucky mountaineers. Burns' description of the ending of the famous Baker-Howard Feud, is one of the most dramatic presentations in modern oratory.

The course also will include Pitt Parker of Boston, the famous wit and cartoonist, and Vissol's Florentine Musicians. The canvas for season tickets in Xenia, has already been started, and the outlook is very favorable for big audiences. Further announcements will be made later.

## ROYALTY'S TRIBUTE TO AMERICAN HOSPITALITY.

Excellent photographs of the King and Queen of the Belgians made in New York shortly before their departure for Boston. Coming from a land which for more than five years has been steeped in sorrow, King Albert and Queen Elizabeth were quick to respond to the hearty greetings of the immense throngs which lined the streets of New York. These photographs are without doubt the best made of the Belgian rulers since their arrival in this country.

## XENIA GIRL IS MARRIED WEDNESDAY IN KALAMAZOO, MICH.

At a quiet service which took place in Kalamazoo, Mich., Wednesday morning, Miss Lois Snodgrass, daughter of Mr. and Mrs. M. R. Snodgrass, became the bride of Paul K. Halder, a young business man of Battle Creek. Miss Onilo Snodgrass, sister of the bride, who is taking a course in nurse training at the Battle Creek Sanatorium, accompanied Mr. Halder to Kalamazoo, where they met the bride. After the service, Mr. and Mrs. Halder went on to Battle Creek, where they will live. Mrs. Halder left Xenia Tuesday night, traveling alone to Kalamazoo where her fiancé and sister met her.

Mrs. Halder graduated a year ago last May from the nurse training school at Battle Creek Sanatorium. She met Mr. Halder during the time she spent in Battle Creek while taking her training. He owns a large bakery and delicatessen business in Battle Creek.

## FOUNDER OF PETERS CARTRIDGE COMPANY BURIED AT WOODLAND

Fifty Cincinnati people including members of the Peters family, came sylvia railroad Wednesday morning, accompanying the body of Gershom Moore Peters, founder of The Peters Cartridge Company, who died Sunday at his home on Walnut Hills.

The funeral party was met at the train by Xenia relatives and friends, and the cortege went directly to Woodland cemetery, where a brief committal service was held at the grave in the King family plot. Dr. S. H. Boyer of the Walnut Hills Baptist church, pastor of the Peters family, and Dr. G. P. Osborn, editor of the Journal and Messenger, were with the friends. With the Rev. Albert Read of this city, they officiated at the service. After the service, the funeral party had luncheon with Miss Emma King and Miss Isadora King, at the King home on East Main street.

They returned to Cincinnati Wednesday afternoon, their special car being attached to the afternoon train.

## AGED WOMAN RUN DOWN AND KILLED BY AN AUTOMOBILE

Columbus, Oct. 8.—Mrs. Sarah J. Temple, 74, died in a local hospital early today as the result of injuries sustained when she was run down by an automobile driven by J. E. Lucas, who reported to the police that he was driving but ten miles an hour. Mrs. Temple was struck by the fender and her skull fractured.

## TETANUS CAUSES THE DEATH OF MRS. WILLIAM KRISE

Tetanus which developed from an injury caused by an automobile accident a week ago last Sunday, resulted in the death of Mrs. William Krise, daughter-in-law of Mrs. Elvora Krise, of this city, which occurred at the Miami Valley Hospital in Dayton, Tuesday night.

Prior to the development of tetanus, it was thought that Mrs. Krise was recovering from the injury, which was in one of her legs. She was 40 years of age, and is survived by her husband and two children. The home of the family is near Tippicanoe City, on a farm. Mr. Krise recently bought another farm near Lewisburg, where he intended moving, and with his family had gone to look over the place when a traction car struck their automobile. Mrs. Krise was the only one of the party hurt, and her injury was at first looked upon as slight.

The body has been taken to the home near Tippicanoe. Interment will be at Enon.

## BODY BROUGHT TO XENIA FOR BURIAL

The body of Charles Anderson, former Xenian, who died at his home in Cincinnati, was brought to this city Tuesday, and the burial took place Tuesday afternoon in Woodland cemetery. The Rev. C. P. Proudfoot and Dr. J. G. Carson conducted a brief committal service.

Relatives who came for the funeral were: Mrs. Fred Marsh of Harrisburg, Penn.; William Hammill of Cincinnati; William Anderson of Dayton, and Emory Gimpel of Dayton. The friends were guests for luncheon of the Misses Sarah and Eleanor Williams.

## REPORT THE STEADY RETURN OF STRIKERS TO THEIR OLD JOBS

Pittsburgh, Pa., Oct. 8.—Reporting steady return of steel strikers to their old jobs, operators in this district whose plants re-opened with only partial forces were preparing today to start new furnaces and mills. The prediction was made by the manufacturers that the whole district would be soon back at normal.

According to the operators several hundred men who had been on strike since the call was issued reported for duty on the night shift last night and the gains were maintained today. Strike headquarters was quiet today with most of the leaders in Washington. Attorney W. R. Rubin of the strikers committee was preparing the testimony to be presented to the senate probers when they visit here.

## Losing Streak Hits the Reds; Sox Win 4 to 1

R H E

Cin. 0 0 0 0 0 1 0 0 0 1 7 4

Cincinnati, Oct. 8.—Gleason's fighting White Sox took another new lease on life today, when they knocked Slim Sallee the Higginsport sheriff, from the hillock, treated Ray Fisher in the same fashion, and defeated the crestfallen Reds 4 to 1.

The Sox began scoring early in the game, rapping the offerings of Moran's tall slat for one run in the first and another in the third. When he got into deep water in the fifth, Moran threw him a life saver in the shape of Ray Fisher, who proved ineffective on the mound as his predecessor and was lifted in favor of Adolpho Luque, the first Cuban to ever participate in a World's Series.

The Cuban hurled excellent ball the rest of the pastime, but his mates' beating him could not solve to any effect the offerings of Eddie Cicotte, thrice comback, who proved the adage of the third time is a charm, by humbling our striving Morantes. The Sox garnered 10 hits off of the delivery of the three Cincinnati pitchers, of whom Luque was by far the most effective. The Reds collected seven bingles off of Cicotte's slants, but committed four errors in the field, which contributed to the general disaster.

There was quite a different feeling in Cincinnati following Tuesday afternoon's bitter defeat as the Reds were about to occupy the throne of victory. All of Cincinnati came suddenly to realize that a team may be down but it's never out until the last mace welder has been effaced from the clouting landscape.

And with such a feeling dwelling in their hearts, the still faithful fans trooped to today's game, hoping that their favorites would end the agony, and fearful lest those white holed gladiators from Chicago should crash their way beyond the Red defense and carry on to the crest of the baseball world. The crumpling of the mental Gibraltar of the Reds in the sixth session of Tuesday's pastime, the fearful facing that was handed to Reuther and the drubbing that Ring got in the few innings that he worked—these were the salient factors in the defeat of the Patmorans.

Speaking previous to today's game, "Kid" Gleason, much heartened, and out of the rut of despair that had gripped him, said that the Sox "comeback" would endure long enough to batter down the pitching staff of the Reds and crush the world's championship ambitions of Cincinnati. "At last the breaks have come to us—and we're on our way," said the "Kid." "Give us a victory this afternoon and we'll take the series. If we hammer those Reds just once more they'll roll over and play dead—and the two games afterward will be a walkaway."

"Oh, no one needs to fret much about us," grinned Pat Moran, before the game. "They beat us—but it took 'em ten innings to do it. That wasn't any glorious victory, was it? And they won't really on merit but because they got a succession of breaks unlike any that ever happened in the world series."

"That defeat, instead of disheartening the boys, simply has keyed them up—and eliminated entirely any possibility of fatal over confidence. Those Reds will be out there this afternoon playing their game—and when they play their game they're unbeatable."

"We aren't doing any worrying—why should we? We've got a two game edge on the Sox, haven't we? We could lose two and still grab the series. But the Sox don't dare lose a single game. And maybe they're up against it for a pitcher today. On the other hand, I have Sallee and Fisher primed for duty, and, in an emergency I could stick in Luque."

All through the pre-game hours there was considerable activity in betting circles. No game of the series has provoked more wagging. The game

## R. W. MOORE HURT IN GAS EXPLOSION

A gas furnace was demolished and a coal furnace badly damaged by an explosion of gas in the former at the home of R. W. Moore on East Market street, Tuesday. Mr. Moore who was in the basement, received a burn on the arm and singed eyebrows and hair. Strangely, he was not seriously hurt.

The explosion occurred when Mr. Moore lit a match to ignite the gas in the gas furnace. Mrs. Moore had turned on the gas from above, and before her husband struck the match sufficient gas had accumulated to cause the explosion.

## CHARMING AFFAIR AT LESOURD HOME

Long stemmed chrysanthemums, roses and dahlias, in the autumn color, yellow, graced the home of Mr. and Mrs. H. S. LeSourd Tuesday evening when they entertained at 500. The affair was the first of the October evening parties, and the hospitable home was overflowing with good cheer. There were 60 guests. After the games a two course supper was served at the card tables. The table in the dining room was centered by a bouquet of red roses. Out of town guests were Mr. and Mrs. Frank Harford, of Springfield, Mrs. Hill and Mrs. Waddell, of Pittsburgh, who are visiting Mr. and Mrs. R. D. Adair.

## GIRL HIT BY STONE HURLED BY BOY

Struck by a flying stone, thrown by a small colored lad, Rosella, the small daughter of Mr. and Mrs. Levitt McDonald, of the Wilmington pike, was slightly injured Tuesday afternoon.

The child was standing at the Xenia bank corner, when the rock, thrown by a colored lad, who was quarreling with some newsboys at the corner, struck her in the head.

**"Nuxated Iron Put Added Power Behind My Punch"**

**Says Jack Dempsey—Tiger Of The Ring**  
Heavyweight Champion of the World Tells A Secret of the Training Which Helped Get Him Into Such Superb Condition That He Was Able to Whip the Mighty Jess Willard and Prove Himself

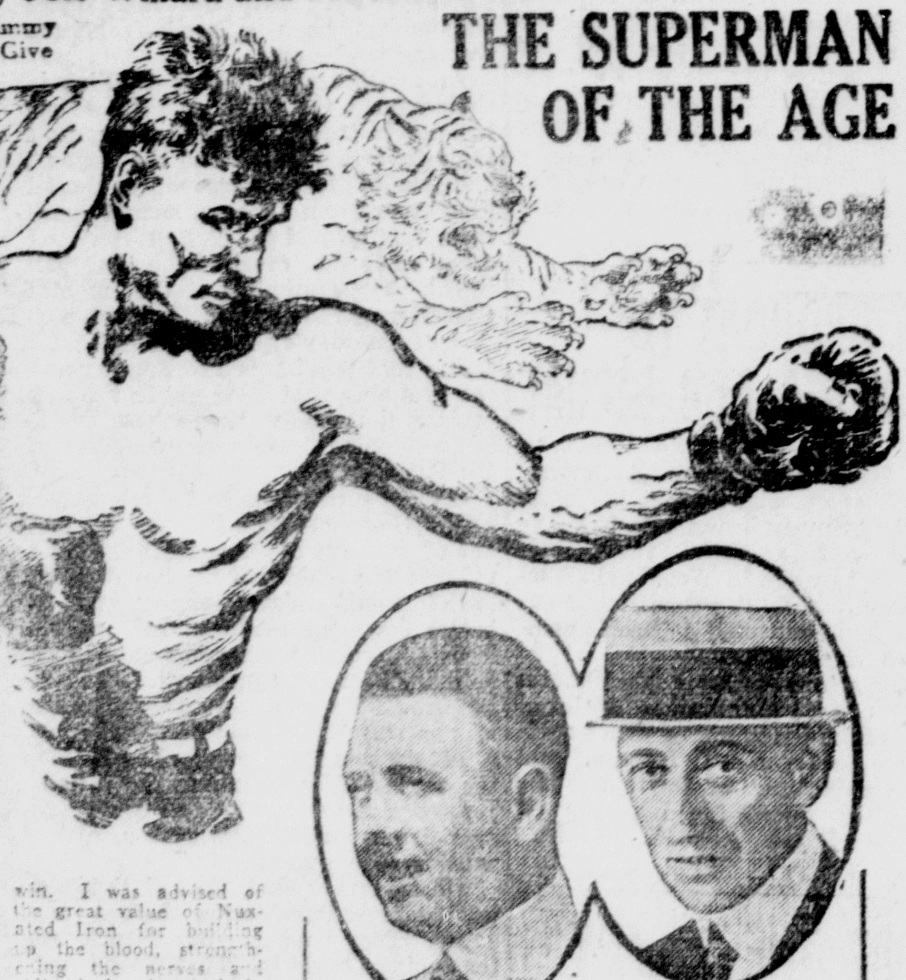

Jack Kearns, Manager for Dempsey, Jimmy DeForest, Chief Trainer, and Others Give Opinions—How Nuxated Iron Helps Strengthen the Nerves, Restore Wasted Tissue and Build RED BLOOD, STRENGTH and ENDURANCE.

Since his overwhelming victory at Toledo when he wrested the World's Championship title from the Go-It-like Jess Willard, Jack Dempsey, the modern David and Goliath of the Fistic World—Jack Kearns, his manager, and Jimmy DeForest, his chief trainer, have been besieged with inquiries as to the methods employed in rounding him in to such superb condition. That Jack Dempsey used Nuxated Iron as a part of the training which produced such marvelous physical development as to make him a veritable human dynamo, should prove conclusively the paramount value he attached to this master strength and blood builder and he explains below why he now recommends it to others.

Just as when a man's life is at stake, physicians seek only the tried and proven treatment, so when the World's Championship hangs in the balance, Dempsey's trainers did not stop to experiment with metallic iron preparations—Nuxated Iron—or other products of questionable value, but they insisted upon having only genuine Nuxated Iron, which they felt could be absolutely relied upon to help build red blood, power and stamina.

In connection with this feature of his training regarding which Dempsey himself makes a statement below, Jimmy DeForest, the Champion's Chief Trainer, is quoted as saying: "For seven weeks previous to July 4th I was in sole charge of the training and preparing of Jack Dempsey for his fight with Jess Willard. During the training period Dempsey was regularly given by me Nuxated Iron and I believe it contributed to his success."

The importance that the Champion himself places upon the part Nuxated Iron played in winning for him the highest laurels known in the athletic world is clearly shown in the following statement made by Jack Dempsey at his training quarters in Toledo, the scene of the big battle when he said: "After commencing the use of Nuxated Iron during my training for the big fight with Jess Willard, I soon noticed that I could stand harder strains with less fatigue than before, and I realized that I had found a tonic and blood builder which played an important part in putting me into fine condition. Formerly I had relied solely upon strength-building foods and outdoor exercise to keep my blood rich and vigorous, but with the World's Championship at stake, I felt that I should be looking around that might help me to

**THE SUPERMAN OF THE AGE**

Manager Jack Kearns who closely watched from day to day the progress of Dempsey's training in which Nuxated Iron played a part and who predicted Dempsey's victory over Willard.

Jimmy DeForest, the Champion's Chief Trainer, tells here why he believes the use of Nuxated Iron by Dempsey contributed to his success.

win. I was advised of the great value of Nuxated Iron for building up the blood, strengthening the nerves and increasing my endurance. Nuxated Iron put added power behind my punch and helped me to accomplish what I did at Toledo. From the results in my own case, where the possession of super endurance is necessary, I feel that I am in a position to strongly recommend Nuxated Iron to every man and woman who wants to build greater strength, energy and power. In connection with the foregoing statement made by Jack Dempsey, Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, said: "In my opinion whoever made the suggestion that Nuxated Iron should play a part in getting Dempsey into condition is to be commended for his foresight. No man without plenty of rich, red blood filled with health-giving and strength-building iron could withstand the terrific onslaught of a giant like Willard. It should occur to

every thinking person that if a man as physically fit as Dempsey should consider it advisable to take Nuxated Iron, how much more important it is for the average man or woman to see that there is no lack of iron in the blood. To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron.

**MANUFACTURER'S NOTE:** Nuxated Iron, which has been used by Jack Dempsey and which is prescribed and recommended above by physicians, is not a secret remedy but one which is well known to druggists everywhere. Unlike the older iron tonics, Nuxated Iron is easily assimilated and does not injure the stomach. It is a natural and entirely satisfactory remedy to every person or they will refund your money. It is dispensed by all good druggists.

**NO WONDER IT BURNED JUST LIKE EVERYTHING**

Old John Fate plays many a prank with the destinies of the individual. When L. W. McIntyre, superintendent of the local branch of the Robbins and Myers factory was looking over the building here, he saw several little cottony substance on the floor that he chose to examine more carefully. "What have you been doing with this," he asked Elias King, who is employed at the plant, and was watchman there before it was leased by the Springfield company. "Oh, I used it to clean my lamps with," said the latter. "Then what did you do with it?" asked Mr. McIntyre. "I burned it up. It burns like everything," replied the watchman. "It ought to," was the comment of the superintendent. "It's gun cotton." Several pounds of the gun cotton, left there at the time of the abandonment by the Aetna Explosives Company, were found and stored away in a safe place, until the Aetna Company can remove it. It is a mystery why the lamp-cleaning process was not accompanied by disastrous results since such "waste" as that was used.

**SEVENTY QUOT TOSSERS WILL BE IN TOURNAMENT**

Seventy members of the Xenia Quoit club will compete in an elimination contest, which started Tuesday evening at 7 o'clock, according to a decision of the club at a meeting Monday evening. The Delco Quoit club of Dayton, recently held such a tournament, in which over 400 players participated, each player staying in the contest until he was eliminated by one defeat. This same plan will be carried out here, and it is expected that every one of the 70 members of the club will take part. The elimination contest playing will be carried on every evening until completed.

## TAKE ASPIRIN AS TOLD BY 'BAYER'

"Bayer" introduced Aspirin to the physicians over 18 years ago.

To get quick relief follow carefully the safe and proper directions in each unbroken package of "Bayer Tablets of Aspirin." This package is plainly stamped with the safety "Bayer Cross."

The "Bayer Cross" means the genuine, world-famous Aspirin prescribed by physicians for over eighteen years. "Bayer Tablets of Aspirin" can be taken safely for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Joint Pains, Neuritis, and Pain generally.

Handy tin boxes of 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylic acid.

## SANDRA THE JEALOUS

BY JANE PHELPS.

Sandra's Father and Mother Visit Her.  
CHAPTER LXXXVII.

Perhaps fortunately for me, father and mother came to visit us just at this time. They came a little sooner than they had expected, as father had a little business to attend to in Henderson. So, as he said, "I will kill two birds with one stone."

Everett was perfect, just perfect. You see he was just father's son, and they talked business together. Then he was son nice to mother. He didn't call her "mother," of course—that would have been too silly, as he was older than she. But he called them both by their first names. They talked it all over right before me and decided that was best. I felt so queer and as if I didn't belong some way.

I longed to tell mother of Leola's letters and of how they had affected me. I had not yet the courage to read any more of them. But mother would have been shocked that I would read a letter not intended for me; so, although I felt I had the right because I was Everett's wife, I did not like to tell her I had done so.

Mother and Mrs. Gray got on famously. I overheard mother say to her:

"I think my daughter extremely fortunate to have you help her in all the things which she was so ignorant. She is so young." The sigh with which mother always spoke of my age accompanied the words.

"She is very adaptable. She is also very lovable," Mrs. Gray said.

Mother sighed again. Then replied:

"Yes—I think she is. But she has so much to learn, that there is much in married life which calls for trust and forbearance. I have wished she had waited until she was older, while feeling she is safe with Everett—Mr. Graham."

"He is very fond of her."

"I am glad to hear you say so. I shall go home much happier, Mrs. Gray, for having met you, and knowing you are with Sandra."

From that moment, Mrs. Gray was a strong partisan of mother's and often spoke of her in the most complimentary terms, which naturally pleased me immensely, especially when she talked before Everett.

I was really almost happy while Father and Mother remained. We entertained for them, and some of Everett's older friends did also. We went to the theater and the opera and everything that could be done for their pleasure, Everett did. I was grateful.

But soon as they left, all my old

forbodings returned. Everett did not love me. I thought, leaden-hearted, I had said it a hundred times. And now I began to wonder what happened then when a man didn't love a woman, and yet was married to her.

"I'll never let him leave me, never give him a divorce," I said to myself, scarcely knowing what a person had to do or leave undone to be divorced. "I would rather he would beat me than be so indifferent. It would be better to have him cruel, than to feel he was loving her all the time. I've not lost him—I never have really had him," I assured myself. The old wonder as to why he had married me obtruding—as to why he wanted to marry me. "It is too late to do anything. He loves Leola," I thought.

Had I thought of it at all, I would have said—before I married Everett that married people were always happy. It was something I, girls of my age, are apt to take for granted. If I had married a man of my own age, I might have found it at once—as I expected. But I think all girls are more flattered when an older man shows them attention, especially a charming man of the world like Everett. We are thrilled by their knowledge, flattered that they notice us.

It isn't until after they are married that the youth of one makes for unhappiness, even though they have everything money can buy and a home everyone envies. It isn't only—as I have found out—that the older man cannot understand the young girl. It is more often that the young girl cannot either understand the older man or appreciate his point of view. So they go on blindly until they resign themselves to their unhappiness or until something opens their eyes to what the other is trying to be and do.

Another thing I have found out—it is usually the wife who is blamed if there is trouble. Especially if a man is socially prominent and liked by his set. Tomorrow—Second Wives are Sensitive.

## FARM BUREAU TO ORGANIZE

On Friday night there will be a meeting of the farmers in Caesar-

crack township to organize a branch of the County Farm Bureau.

Representative W. B. Bryson will be the principal speaker. He will talk on the Classification of Property for Taxation, which is to be voted upon at the November election.

The County Agent will outline the plans for the Farm Bureau for next year.

This is not a closed meeting, but is to be open to all the farmers in the township.

## The Most Acceptable Wedding Gift

There is no worthier gift for the bride than The Brunswick. Nothing is so certain to bring cheer into her new home. Its grace and beauty of design and its matchless tone have made it a standard by which to judge all phonographs.

The Brunswick Method of Tone Reproduction caused a sensation in musical circles. It has revolutionized tone reproduction and projection. Harsh, metallic sounds have been eliminated; all records, regardless of make, can be played with a new quality of tone on The Brunswick.

We shall be glad to play this great instrument for you—to demonstrate the Ukona all-record reproducer, and the new all-wood Tone Amplifier. One hearing will convince you this is the final-type phonograph.

## "EVERYTHING IS CHANGED AT OUR HOUSE" HE SAYS

the Credit for Blessings Received

This statement recently was made to Springfield's Nerv-Worth druggist:

The Troupe Drug Co.—My wife was in a terribly run down condition. Very nervous and could not sleep. Would have the genuine "blues" and worried and fretted about everything. Had a tired and listless feeling and no nerve strength. Her appetite was very bad. Would not eat enough to sustain her. Digestion in bad shape. Had severe headaches.

She purchased two bottles of Nerv-Worth and took their contents regularly and now everything is changed at our house. She is rid of all her nervous troubles and has gained in strength and is a well woman again. Nothing worries her now. She went to Columbus to the G. A. R. convention and came back feeling fine. That gave me added faith in the merits of Nerv-Worth.

### HERBERT HOOVER SAYS WE SHOULD NOT FIDDLE WHILE ROME BURNS.

The thing for us to note with care is that the French, while much more discontented with the peace treaty than even the "utter enders" in the American Senate, have rallied. France is too near the boiling caldron of European disorganization and unrest to permit any purely national dissatisfaction with "the best that Clemenceau could get" to keep her from speaking the word that will bring peace, resumed production and a return to the paths of industry. The French know at first hand the imperative need which exists.

An American who knows something about it is of the same opinion. His name is Herbert Hoover. He said to the students of Stanford University on Thursday last:

"I am confident that if we attempt now to revise the treaty we shall tread a road through European chaos. Even if we managed to keep our borders out of it, we will not escape fearful economic losses. If the League is to break down, we must at once prepare to fight. Few people seem to realize the desperation to which Europe has been reduced. During the coming winter some of them will look with longing eyes on this, rich, fat nation, possessing great surpluses of every human necessity, while they endure inevitable hunger and cold.

"We cannot fiddle while Rome burns. The Allies may themselves ratify this treaty without us, and thus assemble a council of nations of their own in an endeavor to solve the problems of Europe. It would be a council of Europe, and in the midst of these terrible times, considering the debts they owe to us, the material they must have from us or starve, I would rather that we be represented therein lest it become a League of Europe against the Western Hemisphere. A peace without us means more army and navy for us, with the old treadmill of taxes and dangers for us."

Mr. Hoover gives us one concrete stroke of relief which awaits the ratification of the treaty; and it, curiously enough, is one which we all thought not long ago to be of supreme importance, but which we have of late wholly forgotten. It is the disarming of Germany. We think of Germany as being effectively disarmed because she is no longer formidable on the Rhine. But she is formidable—as Mr. Hoover points out.

"At the time I left Europe, a month ago, German militarism had already Poussianism and Bolshevism would ed well-officered army of at least 400,000 men, largely congregated on the Polish frontier, and even defying the government of Berlin. Under the alarm of this danger, the Poles, in the midst of the greatest economic misery that a nation ever knew, have been trying to create an army of 500,000 men for their protection from the Germans on one side and the Bolsheviks on the other. If the treaty is ratified, the German army will be reduced to 200,000 and dispersed over Germany and their extra armament destroyed. The failure of the treaty means the invasion of the Polish state."

This is really a startling bit of news. Few Americans had realized that Germany was still formidable as a fighting power and might precipitate war within the next few months

under conditions which conceivably could win her a decisive and lasting triumph. For the obliteration of Poland between the millstones of Prussianism and Bolshevism would be a first-class German success and a staggering blow to the safety of France.

The present treaty is a compromise. It is the result of hard bargaining and the clash of conflicting interests and ideals. Nobody loves it. France made a most excruciating face as she swallowed it. But it is this treaty or none; and "none" opens the door to a Bolshevik conquest of Europe. And, again, the ocean is only 3000 miles wide.

It is perfectly clear that we must either go in or stay out. If we are going to attempt to live in the remodeled world, which is in the making before our eyes, we had better, in self-defense, see that we have a good deal to say about how it is made. We must reduce the dynamite that is to be built into it to a minimum and we must be ready with our oil can when the rough edges that fit badly begin to grind. We cannot afford another war.

## GAME WITH THE LANCASTER TEAM HAS BEEN CANCELED

The scheduled football game between Central High School and Lancaster High School will not be played. The game would have marked the

## Become Slender

A Simple, Guaranteed Method

If you would like to lose weight, from one to five pounds of burdensome fat while eating and drinking all you need, also enjoying life far better than at present, just follow this advice:

Take seven deep breaths of fresh air each morning and evening; after each meal take a little oil of lemon; eat all you need, but chew thoroughly, and follow other simple directions of the guaranteed Korean system. Men and women who were waddling around with heavy, sluggish bodies have, in many cases, reported a gradual, agreeable reduction of thirty to sixty pounds, with wonderful benefit to health and figure. This very season is the time to become slender, attractive, vivacious and healthier, very easily. Get oil of lemon at the drugists; it comes in capsules, convenient to use and is now sold at before-war low price. Weigh and measure yourself week to week. You can scarcely realize the joy that awaits you in normal symmetrical figure, with good health and longer life. Show others this advertisement.

first meeting of these two teams, and was arranged on the application of the Lancaster manager, who said that Lancaster wanted to start athletic relations with the local school.

The cancellation of the game leaves Central without a game for next Saturday, unless Coach V. L. Faires arranges a game within the next few days.

High School teams in this vicinity will be appealed to in an effort to keep the day from going idle, and it is expected that their regular Saturday afternoon grid argument will be played as usual.

Coach Faires is also announcing a shift in his lineup, which will be tried out this week. The change is one suggested by the mentor to strengthen his eleven against possible defeats such as received by the locals at the hands of Washington last Saturday.

Coach Faires' plans were announced to the football candidates Monday afternoon. There was no practice session only some blackboard work being gone through with.

The shift, as announced, involves the changing of Coach Ridenow, now half back and punter, now full back, to each of the halves, the changing of Boxwell, tackle, to full back, shifting of LeSourd from quarter back to half back, and Bales from end to half back. Lane is a likely recruit to fill in at end.

Fans will watch with interest the success of the shift in this week's practice.

## How Fat Folks May Become Thin

If you are suddenly becoming stout, or if you have been putting on flesh for years, the cause is generally the same—lack of oxygen carrying power of the blood. This trouble occurs mostly in men and women over thirty, but it may be easily treated and without any of the privations most fat people imagine necessary to reduce their weight. Simply go to your druggist and get a box of Phynola. Take five grains after each meal and at bedtime. Wonderful results should be quickly accomplished by this simple treatment. Be sure however you get the genuine Phynola. It is put up in original sealed packages, is pleasant to take and gives prompt results. Sayre & Hemphill or any drug store can supply you.

**WOMEN ARE CARELESS**  
This has been proved over and over again during the war. They over-estimate their physical strength and overtax it. Their ambition is commendable, but does not compensate for the hours and days of misery which they suffer from symptoms caused by female ills brought on by overwork. Women who are weak, nervous, despondent, with headaches, backache and dragging-down pains should remember there is one tried and true remedy, that is Lydia E. Pinkham's Vegetable Compound, now recognized everywhere as the standard remedy for such ailments.

Mrs. Mary Martin, of this city, is planning to take a trip to the Pacific Coast and will start the latter part of this month. Her destination is Los Angeles, but she expects to stop enroute to visit her brother at Reno, Nev., and a niece at Oakland, Cal.

**COMMANDER C. L. DARLINGTON AND OMER TATE AT CONVENTION**

Post Commander Charles L. Darlington, and Post Adjutant Omer Tate of Joseph P. Foody Post, No. 95, American Legion, went to Columbus Wednesday where they will be in attendance at the first state convention of the legion, Wednesday and Thursday.

Mr. Darlington and Mr. Tate were the delegates elected by the local Post to represent it at the convention. Vice Post Commander Paul S. Turnbull and Secretary of the executive committee, Paul H. Creswell, also went to Columbus to be in attendance at the convention.

A special rate of one and one-third cents was offered to all delegates, members of the Legion and their families who wished to attend the convention, by the Pennsylvania railroad, and it was expected that a number of other local people would also be present on one or the other days of the convention.

Both the two delegates and Mr. Creswell and Mr. Turnbull motored to Columbus.

**PUBLIC SALE OF LAND**

Don't forget the public sale of 102.70 acres on October 25, 1919, at 10 o'clock a. m., at the court house in Xenia.

This is a splendid farm about 3 miles east of Xenia on the Hoop road. The landlord's share of the wheat crop—one half—passes to the purchaser at the sale. Possession given March 1, 1920. Appraised at \$200 per acre. Must bring not less than two-thirds the appraisement.

This is an unusual chance to buy a good farm, adapted for all crops.

For further information apply to M. J. Hartley, Administrator. adv

Rev. Hibbard J. Jewett, formerly pastor of Trinity M. E. church here, now pastor of the Broadway M. E. church in Dayton, has married probably the first couple since his transfer to the Dayton church.

L. M. King, 81 years of age, and Mrs. Maggie Ward, 45, were united by Rev. Jewett recently. The bridegroom is a veteran of the Civil war. Mrs. King has six children ranging in age from 10 to 23 years.

## VETERAN BALL PLAYER FATHER-IN-LAW OF ROBERT EDWARDS

Oak Taylor, of Atlanta, Ga., one of three surviving members of the champion Reds of 1869, who has been in Cincinnati attending the World's series is a father-in-law of Robert Edwards of Atlanta, who is a nephew of Mrs. R. C. West of this city.

Mr. Taylor, George Wright of Boston and Cal McVey of San Francisco, are the three surviving members of the team of 1869, which is the last year the Reds won the pennant. The three men were guests at the big series of the Cincinnati Chamber of Commerce, and before the close of the National League season appeared on the diamond before the game and carried again as of yore, tossing the ball around.

## Watch the Little Pimples; They are Nature's Warning

Unsightly and Disfiguring Signs of Bad Blood.

Pimples on the face and other parts of the body are warnings from Nature that your blood is sluggish and impoverished. Sometimes they foretell eczema, boils, blisters, and other skin disorders that burn like flames of fire.

They mean that your blood needs S. S. S. to cleanse it of these impure accumulations that can cause

unlimited trouble. This remedy is one of the greatest vegetable compounds known, and contains no minerals or chemicals to injure the most delicate skin.

Go to your drug store, and get a bottle of S. S. S. today, get rid of those unsightly, disfiguring pimples, and other skin irritations. It will cleanse your blood thoroughly. For special medical advice free, address Medical Director, 41 Swift Laboratory, Atlanta, Ga.

## Asserts New Discovery Brings Blessed Relief To Rose and Hay Fever Sufferers

Can Make It Yourself At Home At Trifling Expense

In spite of all the doubters and scoffers, a man in Kentucky, who changed his annoying and distressing hay fever into less than a mild cold, claims most emphatically that if taken in time hay fever can be conquered or at least made so harmless that it is not even bothersome.

He gave his discovery to scores of other sufferers with the most remarkable results and has recently been prevailed upon to dispense it through pharmacists to all hay fever sufferers who still have faith that nature has provided an effective remedy for this common yet miserable disease.

And best of all this remedy costs no

most nothing. Get a one ounce bottle of Mentholized Arcline at any drug store, pour the contents into a pint bottle and fill the pint bottle with water that has been boiled.

Then gargle as directed and twice daily sniff or spray each nostril thoroughly.

That's all there is to it; so simple that a lot of people will say that it can't do the work; but oftentimes simple natural remedies are the best as you will find after using.

If you will make up a pint and use it for a week or ten days you need not be surprised if your unwelcome yearly visitor fails to appear.

## IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delicious, effervescent lithia-water drink.

## REAL COTTON IS RAISED ON FARM AT WILBERFORCE

Real, honest-to-goodness, cotton, has been raised right here in old Greene county.

Prof. Wm. Berry, professor of agriculture and in charge of the farm of the C. N. and I. department of Wilberforce University, experimented with raising cotton this summer, which is now ready to pick.

The cotton raised on the Wilberforce farm is now bursting out and is attracting the attention of many people of this section, who are not used to seeing cotton growing in this climate.

The cotton growing, is a clever and interesting experiment, and shows that the crop could be developed even in this climate.

The cotton is being shown to visitors and Prof. Berry invites inspection of his experimental crop.

The Good Samaritan Class of the Friends church will meet Thursday evening. All members please be present.

## Farm Salesmen Wanted

Prospective farm buyers to the number of 117,000 wrote and called at our offices in America's ten largest cities during 1918.

We have a score of agency points in Michigan and Northern Ohio. Our representatives in these two states sold 66 farms last month.

The requirements of our clients now demand that we establish a few reliable men to act as our representatives in Indiana, Kentucky and Southern Ohio to send us descriptions of farms for sale and show same to our customers.

Experience not necessary but must own an automobile.

Our business is paying capable men \$2,000 to \$10,000 yearly. State all particulars in first letter regarding your age, business experience and if you are a property owner. All communications treated as confidential.

## LENINE CAST INTO PRISON

London, Oct. 8.—Serious revolution has broken out at Moscow and Nicholas Lenine, the Bolshevik premier and dictator, has been cast into prison, according to an Exchange Telegraph dispatch from Helsingfors today.

A reign of terror at Moscow was reported by the Exchange Telegraph correspondent at Reval. Peters, the chief agent of the Bolshevik chiefs, who had signed away the lives of thousands of suspected bourgeois, is said to have been killed.

News of the uprising was secured in Helsingfors from Moscow by wireless. According to this version Lenine had ordered the arrest of Leon Trotsky, the Red minister of war, but instead of obeying the order the soldiers arrested Lenine himself.

Lenine and Trotsky were in power with headquarters first in Petrograd and later at Moscow since September, 1917, after the overthrow of Kerensky. Lenine was in exile in Switzerland when the Imperial Russian government was overturned, but shortly after the republican government was set up the German government gave him and a party of friends permission to cross that country en route for Petrograd in a "sealed train." Soon afterwards trouble began to develop in Russia.

The first serious counter uprising came in July, 1917. A few months later the radicals seized complete control and since then have been engaged in constant warfare with the Poles, Estonians, Finns, Ukrainians and the allies in Siberia and northern Russia. Continuous successes have been reported for the white armies in Russia during the past few days. Admiral Kolchak's forces are advancing eastward along the Ural mountain front and General Denikin's troops are driving northward from the Black Sea district.

## IRISH PRESIDENT CONTINUES DRIVE TO ENLIST SYMPATHY

Cleveland, O., Oct. 8.—Edward DeValera, Irish president, continued his campaign today to enlist the sympathy of Ohio in the cause of the emerald isle's independence. He went to Columbus this morning.

Last night a crowd which overflowed Central Army to the extent of 3,000 persons cheered DeValera for 25 minutes.

"The present league of nations is a device to weld the fetters on oppressed peoples," the Irish leader declared saying the people of Ireland would never approve it in its present form.

Michael J. Ryan, member of the Irish-American commission, also spoke last night.

## NORWAY FOLLOWS UNITED STATES INTO THE DRY COLUMN

London, Oct. 8.—Norway has followed the United States into the dry column. In the plebiscite on prohibition the dry message received 406,000 votes against 272,000 votes against it, said a Central News dispatch from Christiania today.

### THRESHER KILLED

Canton, O., Oct. 8.—Howard Newell a thrasher living west of Magnolia, died within fifteen minutes after he had been caught in a shredder which was being used in filling a silo. His left arm was nearly torn off and he died from loss of blood. Newell was survived by a widow and four children.

## WILSON'S INDUSTRIAL CONFERENCE ADJOURNS AFTER SHORT MEETING

Washington, Oct. 8.—After a session lasting but 30 minutes, President Wilson's industrial conference adjourned today because there was no work which could be taken up by the conference sitting as a whole.

The adjournment was proposed by Secretary Lane, who stated that he believed more could be accomplished by each of the groups—labor, capital and the public—holding individual meetings and each group getting its work in shape for presentation to the conference at its opening session tomorrow.

"If adjournment is the only way we can get action, I am in favor of it," said Gavin McNab, of San Francisco. "But I announce here and now that I am direct actionist. I want to see something done. I am opposed to a vacuum."

Washington, Oct. 8.—The third day of President Wilson's industrial conference opened today without the delegates knowing where they are going or how they are going to get there.

"Just fiddlin' round," said Michael Tighe, of the labor group, who also is president of the Amalgamated Association of Tin, Iron and Steel Workers, whose members are on a strike in a dozen steel centers throughout the country.

Across the aisle from Tighe sits Elbert H. Gary, head of the U. S. Steel Corporation, against which the strike is directed. Figuratively they sit close enough together to nudge each other; Judge Gary calls him "Mike," and they smile at each other. But that is all. Judge Gary is representing the public in this conference.

Representing the same public is John D. Rockefeller, Jr., directing head of the Standard Oil Company, and its many subsidiaries. Occasionally he chats amiably with his fellow delegates across on the labor side of the hall. L. E. Sheppard, one of the railway brotherhood chiefs, even poked a forefinger into Mr. Rockefeller's immaculate shirt bosom to emphasize the story he was telling him. But that is all. Mr. Rockefeller represents the public. The public is interested in labor's wants. So far neither Mr. Rockefeller nor Judge Gary has raised his voice in the conference except to vote "yea" and "nay" on minor questions of organization. Mr. Rockefeller in the two days of the conference has sat most of the time with a top coat held across his knees so he can leave the minute the adjournment is taken.

The two days of the conference have developed the spokesmen for the representatives. Samuel Gompers' deep bass boomed out from the extreme right where labor sits. On the extreme left is Frederick P. Fish, Boston attorney, late chairman of the National Industrial conference board, who to date has done most of the speaking for the so-called capitalists of the house. In the center section where sits the public, the speaking has been divided among John Spargo, Socialist; Thomas L. Chadbourne, a New York broker, whose friends say he is a "radical"; and Gavin McNab, of San Francisco. Mr. McNab has raised his voice often in favor of "getting to work and going somewhere." John Spargo has fought for anything which most of the other delegates are against.

## AMERICAN LEGION OPENS CONVENTION

Columbus, Oct. 8.—At the opening session of the State Convention of the American Legion here today, delegates will be chosen to the national convention, which will be held in Minneapolis. Governor Cox will welcome the delegates in behalf of the state and Mayor Karb in behalf of the city.

The principal address tonight will be given by former Senator Luke Lea, of Tennessee, who served as an officer in the overseas forces.

## TROOPS WILL LEAVE BALTIC

Copenhagen, Oct. 8.—Official announcement was made in Berlin that the appeal to the German troops to withdraw from the Baltic, as demanded by the peace conference, has been successful, said a dispatch from Berlin today.

Several transports soon will be en route for Germany, it was stated. General Von Der Goltz, reported yesterday to have joined up with the Russians, was said to be in command of the withdrawals.

## FIFTY THOUSAND LONGSHOREMEN GO OUT ON A STRIKE

New York, Oct. 8.—Between 50,000 and 60,000 longshoremen went on an unauthorized strike today and as a result shipping is tied up at many points. Several piers are congested with freight and several ships were forced to postpone their sailings.

John Reilly, president of the New York district council of the National Longshoremen's Association, was badly beaten by strikers this morning when he tried to induce some of them to return to work.

At a quiet service which took place in Kalamazoo, Mich., Wednesday morning, Miss Lois Snodgrass, daughter of Mr. and Mrs. M. R. Snodgrass, became the bride of Paul K. Halder, a young business man of Battle Creek.

Miss Omilo Snodgrass, sister of the bride, who is taking a course in nurse training at the Battle Creek Sanatorium, accompanied Mr. Halder to Kalamazoo, where they met the bride. After the service, Mr. and Mrs. Halder went on to Battle Creek, where they will live. Mrs. Halder left Xenia Tuesday night, traveling alone to Kalamazoo where her fiancé and sister met her.

Mrs. Halder graduated a year ago last May from the nurse training school at Battle Creek Sanatorium. She met Mr. Halder during the time she spent in Battle Creek while taking her training. He owns a large bakery and delicatessen business in Battle Creek.

The first contestant, compelled to drop out of the race was Second Lieutenant McDonald, whose motor developed trouble.

## FINE ATTRACTIONS ON STAR COURSE

Unusual interest has been manifested in the exceptional quality of attractions provided for this season's Star Course, which will be managed by the Xenia Social Service League.

The course is to open on Tuesday evening, October 21st, by the celebrated Bertha Farnar Company. This number will be a treat that the music lovers of Xenia will enjoy in this opportunity to hear one of America's greatest lyric sopranos. Bertha Farnar scored great commendation by her singing in Paris, Brussels, and London. Her tour as prima donna of the San Carlos Grand Opera Co., brought her the admiration and applause of tremendous audiences in almost every large city in the United States. For her appearance in Xenia, she will be ably assisted by an excellent violinist, a cellist, and a pianist. Fortunate indeed, that this community may hear this attraction, which is one of the most expensive in the whole lyceum field.

The Bertha Farnar Co., will be followed, a little later in the season, by "Burns of the Mountains," that much heralded pioneer in the rejuvenation of the Kentucky mountaineers. Burns' description of the ending of the famous Baker-Howard feud, is one of the most dramatic presentations in modern oratory.

The course also will include Pitt Parker of Boston, the famous wit and cartoonist, and Vissolou's Florentine Musicians. The canvas for season tickets in Xenia has already been started, and the outlook is very favorable for big audiences. Further announcements will be made later.

## ROYALTY'S TRIBUTE TO AMERICAN HOSPITALITY.

Excellent photographs of the King and Queen of the Belgians made in New York shortly before their departure for Boston. Coming from a land which for more than five years has been steeped in sorrow, King Albert and Queen Elizabeth were quick to respond to the hearty greetings of the immense throngs which lined the streets of New York. These photographs are without doubt the best made of the Belgian rulers since their arrival in this country.

## XENIA GIRL IS MARRIED WEDNESDAY IN KALAMAZOO, MICH.

At a quiet service which took place in Kalamazoo, Mich., Wednesday morning, Miss Lois Snodgrass, daughter of Mr. and Mrs. M. R. Snodgrass, became the bride of Paul K. Halder, a young business man of Battle Creek. Miss Omilo Snodgrass, sister of the bride, who is taking a course in nurse training at the Battle Creek Sanatorium, accompanied Mr. Halder to Kalamazoo, where they met the bride. After the service, Mr. and Mrs. Halder went on to Battle Creek, where they will live. Mrs. Halder left Xenia Tuesday night, traveling alone to Kalamazoo where her fiancé and sister met her.

Mrs. Halder graduated a year ago last May from the nurse training school at Battle Creek Sanatorium. She met Mr. Halder during the time she spent in Battle Creek while taking her training. He owns a large bakery and delicatessen business in Battle Creek.

## FOUNDER OF PETERS CARTRIDGE COMPANY BURIED AT WOODLAND

Fifty Cincinnati people, including members of the Peters family, came sylvania railroad Wednesday morning, accompanying the body of Gershon Moore Peters, founder of the Peters Cartridge Company, who died Sunday at his home on Walnut Hills.

The funeral party was met at the train by Xenia relatives and friends, and the cortege went directly to Woodland cemetery, where a brief committal service was held at the grave in the King family plot. Dr. S. H. Boyer of the Walnut Hills Baptist church, pastor of the Peters family, and Dr. G. P. Osborn, editor of the Journal and Messenger, were with the friends. With the Rev. Albert Read of this city, they officiated at the service. After the service, the funeral party had luncheon with Miss Emma King and Miss Isadora King, at the King home on East Main street.

They returned to Cincinnati Wednesday afternoon, their special car being attached to the afternoon train.

## AGED WOMAN RUN DOWN AND KILLED BY AN AUTOMOBILE

Columbus, Oct. 8.—Mrs. Sarah J. Temple, 74, died in a local hospital early today as the result of injuries sustained when she was run down by an automobile driven by J. E. Lucas, who reported to the police that he was driving but ten miles an hour. Mrs. Temple was struck by the fender and her skull fractured.

## TETANUS CAUSES THE DEATH OF MRS. WILLIAM KRISE

Tetanus which developed from an injury caused by an automobile accident a week ago last Sunday, resulted in the death of Mrs. William Krise, daughter-in-law of Mrs. Elmo Krise, of this city, which occurred at the Miami Valley Hospital in Dayton, Tuesday night.

Prior to the development of tetanus, it was thought that Mrs. Krise was recovering from the injury, which was in one of her legs. She was 40 years of age and was survived by her husband and two children. The home of the family is near Tippicanoe City, on a farm. Mr. Krise recently bought another farm near Lewisburg, where he intended moving, and with his family had gone to look over the place when a traction car struck their automobile. Mrs. Krise was the only one of the party hurt, and her injury was at first looked upon as slight.

The body has been taken to the home near Tippicanoe. Interment will be at Enon.

## BODY BROUGHT TO XENIA FOR BURIAL

The body of Charles Anderson, former Xenian, who died at his home in Cincinnati, was brought to this city Tuesday, and the burial took place Tuesday afternoon in Woodland cemetery. The Rev. C. P. Proudfit and Dr. J. G. Carson conducted a brief committal service.

Relatives who came for the funeral were: Mrs. Fred Marsh of Harrisburg, Penn.; William Hammill of Cincinnati; William Anderson of Dayton, and Emory Gimpel of Dayton. The friends were guests for luncheon of the Misses Sarah and Eleanor Williams.

## REPORT THE STEADY RETURN OF STRIKERS TO THEIR OLD JOBS

Pittsburgh, Pa., Oct. 8.—Reporting steady return of steel strikers to their old jobs, operators in this district whose plants reopened with only partial forces were preparing today to start new furnaces and mills. The prediction was made by the manufacturers that the whole district would be soon back at normal.

According to the operators several hundred men who had been on strike since the call was issued reported for duty on the night shift last night and the gains were maintained today. Strike headquarters was quiet today with most of the leaders in Washington. Attorney W. R. Rubin of the strikers committee was preparing the testimony to be presented to the senate probers when they visit here.

## Losing Streak Hits the Reds; Sox Win 4 to 1

Cincinnati, Oct. 8.—Gleason's fighting White Sox took another new lease on life today, when they knocked Slim Sallee the Higginsport sheriff, from the hillock, treated Ray Fisher in the same fashion, and defeated the crestfallen Reds 4 to 1.

The Sox began scoring early in the game, rapping the offerings of Moran's tall slat for one run in the first and another in the third. When he got into deep water in the fifth, Moran threw him a life saver in the shape of Ray Fisher, who proved ineffective on the mound as his predecessor and was lifted in favor of Adolpho Luque, the first Cuban to ever participate in a World's Series.

The Cuban hurled excellent ball the rest of the pastime, but his mates behind him could not solve to any effect the offerings of Eddie Cicotte, thrice comeback, who proved the adage of the third time is a charm, by humbling our striving Morannes. The Sox garnered 10 hits off of the delivery of the three Cincinnati pitchers, of whom Luque was by far the most effective. The Reds collected seven bingles off of Cicotte's slants, but committed four errors in the field, which contributed to the general disaster.

There was quite a different feeling in Cincinnati following Tuesday afternoon's bitter defeat as the Reds were about to occupy the throne of victory. All of Cincinnati came suddenly to realize that a team may be down but its never out until the last mace welder has been effaced from the clouting landscape.

And with such a feeling dwelling in their hearts, the still faithful fans trooped to today's game, hoping that their favorites would end the agony, and fearful lest those white hosed gladiators from Chicago should crash their way beyond the Red defense and carry on to the crest of the baseball world. The crumbling of the mental Gibraltar of the Reds in the sixth session of Tuesday's pastime, the fearful lacing that was handed to Reuther and the drubbing that Ring got in the few innings that he worked—these were the salient factors in the defeat of the Patmorans.

Speaking previous to today's game, "Kid" Gleason, much heartened, and out of the rut of despair that had gripped him, said that the Sox' "comeback" would endure long enough to batter down the pitching staff of the Reds and crush the world's championship ambitions of Cincinnati. "At last the breaks have come to us—and we're on our way," said the "Kid." "Give us a victory this afternoon and we'll take the series. If we hammer those Reds just once more they'll roll over and play dead—and the two games afterward will be a walkaway."

"Oh, no one needs to fret much about us," grinned Pat Moran, before the game. "They beat us—but it took 'em ten innings to do it. That wasn't any glorious victory, was it? And they won't really on merit but because they got a succession of breaks unlike any that ever happened in the world series."

"That defeat, instead of disheartening the boys, simply has keyed them up—and eliminated entirely any possibility of fatal over confidence. Those Reds will be out there this afternoon playing their game—and when they play their game they're unbeatable."

"We aren't doing any worrying—why should we? We've got a two game edge on the Sox, haven't we? We could lose two and still grab the series. But the Sox don't dare lose a single game. And maybe they're up against it for a pitcher today. On the other hand, I have Sallee and Fisher primed for duty, and in an emergency I could stick in Luque."

All through the pre-game hours there was considerable activity in betting circles. No game of the series has provoked more wagering. The gam-

## R. W. MOORE HURT IN GAS EXPLOSION

A gas furnace was demolished and a coal furnace badly damaged by an explosion of gas in the former at the home of R. W. Moore on East Market street, Tuesday. Mr. Moore who was in the basement, received a burn on the arm and singed eyebrows and hair. Strangely, he was not seriously hurt.

The explosion occurred when Mr. Moore lit a match to ignite the gas in the gas furnace. Mrs. Moore had turned on the gas from above, and before her husband struck the match sufficient gas had accumulated to cause the explosion.

## CHARMING AFFAIR AT LESOURD HOME

Long stemmed chrysanthemums, roses and dahlias, in the autumn color, yellow, graced the home of Mr. and Mrs. H. S. LeSourd Tuesday evening when they entertained at 500. The affair was the first of the October evening parties, and the hospitable home was overflowing with good cheer. There were 60 guests. After the games a two course supper was served at the card tables. The table in the dining room was centered by a bouquet of red roses. Out of town guests were Mr. and Mrs. Frank Harford, of Springfield, Mrs. Hill and Mrs. Waddell, of Pittsburgh, who are visiting Mr. and Mrs. R. D. Adair.

## GIRL HIT BY STONE HURLED BY BOY

Struck by a flying stone, thrown by a small colored lad, Rosella, the small daughter of Mr. and Mrs. Levitt McDonald, of the Wilmington pike, was slightly injured Tuesday afternoon.

The child was standing at the Xenia bank corner, when the rock, thrown by a colored lad, who was quarrelling with some newsboys at the corner, struck her in the head.

**Says Jack Dempsey—Tiger Of The Ring**  
Heavyweight Champion of the World Tells A Secret of the Training Which Helped Get Him Into Such Superb Condition That He Was Able to Whip the Mighty Jess Willard and Prove Himself

Jack Kearns, Manager for Dempsey, Jimmy DeForest, Chief Trainer, and Others Give Opinions—How Nuxated Iron Helps Strengthen the Nerves, Restore Wasted Tissue, and Build Red Blood, STRENGTH and ENDURANCE.

Since his overwhelming victory at Toledo when he wrested the World's Championship title from the Goatshead Jess Willard, Jack Dempsey, the modern David and Miracle Man of the Pacific World—Jack Kearns, his manager, and Jimmy DeForest, his chief trainer, have been besieged with inquiries as to the methods employed in rounding him into such superb condition. That Jack Dempsey used Nuxated Iron as a part of the training which produced such marvelous physical development as to make him a veritable human dynamo, should prove conclusively the paramount importance of this master strength and blood builder and he explains below why he now recommends it to others.

Just as when a man's life is at stake, physicians seek only the tried and proven treatment, so when the World's Championship hung in the balance, Dempsey's trainers did not stop to experiment with metallic iron preparations—Nux and Iron—or other products of questionable value, but they insisted upon having only genuine Nuxated Iron which they felt could be absolutely relied upon to help build red blood, power and stamina.

In connection with this feature of his training regarding which Dempsey himself makes a statement below, Jimmy DeForest, the Champion's Chief Trainer, is quoted as saying: "For seven weeks previous to July 1st I was in sole charge of the training and preparing of Jack Dempsey for his fight with Jess Willard. During the training period Dempsey was regularly given by me Nuxated Iron and I believe it contributed to his success."

**THE SUPERMAN OF THE AGE**

Manager Jack Kearns who closely watched from day to day the progress of Dempsey's training in which Nuxated Iron played a part and who predicted Dempsey's victory over Willard.

Jimmy DeForest, the Champion's Chief Trainer, tells here why he believes the use of Nuxated Iron by Dempsey contributed to his success.

Every thinking person that if a man as physically fit as Dempsey should consider it advisable to take Nuxated Iron, how much more important it is for the average man or woman to see that there is no lack of iron in the blood. To help make strong, lean, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron.

**NO WONDER IT BURNED JUST LIKE EVERYTHING**

Old John Fate plays many a prank with the destinies of the individual.

When L. W. McIntyre, superintendent of the local branch of the Robbins and Myers factory was looking over the building here, he saw several lit cottony substance on the floor that he chose to examine more carefully.

"What have you been doing with this," he asked Elias King, who is employed at the plant, and was watchman there before it was leased by the Springfield company.

"Oh, I used it to clean my lamps with," said the latter.

"Then what did you do with it?" asked Mr. McIntyre.

"I burned it up. It burns like everything," replied the watchman.

"It ought to," was the comment of the superintendent. "It's gun cotton."

Several pounds of the gun cotton, left there at the time of the abandonment by the Aetna Explosives Company, were found and stored away in a safe place, until the Aetna Company can remove it.

It is a mystery why the lamp-cleaning process was not accompanied by disastrous results since such "waste" as that was used.

**SEVENTY QUOT TOSSERS WILL BE IN TOURNAMENT**

## SANDRA THE JEALOUS

BY JANE PHELPS.

Sandra's Father and Mother Visit Her.

## CHAPTER LXXXVII.

Perhaps fortunately for me, father and mother came to visit us just at this time. They came a little sooner than they had expected, as father had a little business to attend to in Henderson. So, as he said, "I will kill two birds with one stone."

Everett was perfect, just perfect. You see he was just father's age, and they talked business together. Then he was son nice to mother. He didn't call her "mother," of course—that would have been too silly, as he was older than she. But he called them both by their first names. They talked it all over right before me and decided that was best. I felt so queer and as if I didn't belong some way.

I longed to tell mother of Leola's letters and of how they had affected me. I had not yet the courage to read any more of them. But mother would have been shocked that I would read a letter not intended for me; so, although I felt I had the right because I was Everett's wife, I did not like to tell her I had done so.

Mother and Mrs. Gray got on famously. I overheard mother say to her:

"I think my daughter extremely fortunate to have you help her in all the things which she was so ignorant. She is so young." The sigh with which mother always spoke of my age accompanied the words.

"She is very adaptable. She is also very lovable," Mrs. Gray said.

Mother sighed again. Then replied:

Yes—I think she is. But she has so much to learn, that there is much in married life which calls for trust and forebearance. I have wished she had waited until she was older, while feeling she is safe with Everett—Mr. Graham.

"He is very fond of her." "I am glad to hear you say so. I shall go home much happier, Mrs. Gray, for having met you, and knowing you are with Sandra."

From that moment, Mrs. Gray was a strong partisan of mother's and often spoke of her in the most complimentary terms, which naturally pleased me immensely, especially when she talked before Everett.

I was really almost happy while Father and Mother remained. We entertained for them, and some of Everett's older friends did also. We went to the theater and the opera and everything that could be done for their pleasure, Everett did. I was grateful.

But soon as they left, all my old

forbodings returned. Everett did not love me. I thought, leaden-hearted. I had said it a hundred times. And now I began to wonder what happened then when a man didn't love a woman, and yet was married to her.

"I'll never let him leave me, never give him a divorce," I said to myself, scarcely knowing what a person had to do or leave undone to be divorced. "I would rather he would beat me than be so indifferent. It would be better to have him cruel, than to feel he was loving her all the time. I've not lost him—I never have really had him." I assured myself. The old wonder as to why he had married me obtruding—as to why he wanted to marry me. "It is too late to do anything. He loves Leola," I thought.

Had I thought of it at all, I would have said—before I married Everett that married people were always happy. It was something I, girls of my age, are apt to take for granted. If I had married a man of my own age, I might have found it at once—as I expected. But I think all girls are more flattered when an older man shows them attention, especially a charming man of the world like Everett. We are thrilled by their knowledge, flattered that they notice us.

It isn't until after they are married that the youth of one makes for unhappiness, even though they have everything money can buy and a home everyone envies. It isn't only—as I have found out—that the older man cannot understand the young girl. It is more often that the young girl cannot either understand the older man or appreciate his point of view. So they go on blindly until they resign themselves to their unhappiness or until something opens their eyes to what the other is trying to be and do.

Another thing I have found out—it is usually the wife who is blamed if there is trouble. Especially if a man is socially prominent and liked by his set. Tomorrow—Second Wives are Sensitive.

## "EVERYTHING IS CHANGED AT OUR HOUSE" HE SAYS

the Credit for Blessings Received

This statement recently was made to Springfield's Nerv-Worth druggist:

The Troupe Drug Co.—My wife was in a terribly run down condition. Very nervous and could not sleep. Would have the genuine "blues" and worried and fretted about everything. Had a tired and listless feeling and no nerve strength. Her appetite was very bad. Would not eat enough to sustain her. Digestion in bad shape. Had severe headaches. She purchased two bottles of Nerv-Worth and took their contents regularly and now everything is changed at our house. She is rid of all her nervous troubles and has gained in strength and is a well woman again. Nothing worries her now. She went to Columbus to the G. A. R. convention and came back feeling fine. That gave me added faith in the merits of Nerv-Worth.

### HERBERT HOOVER SAYS WE SHOULD NOT FIDDLE WHILE ROME BURNS.

The thing for us to note with care is that the French, while much more discontented with the peace treaty than even the "outter enders" in the American Senate, have ratified. France is too near the boiling caldron of European disorganization and unrest to permit any purely national dissatisfaction with "the best that Clemenceau could get" to keep her from speaking the word that will bring peace, resumed production and a return to the paths of industry. The French know at first hand the imperative need which exists.

An American who knows something about it is of the same opinion. His name is Herbert Hoover. He said to the students of Stanford University on Thursday last:

"I am confident that if we attempt now to revise the treaty we shall tread a road through European chaos. Even if we managed to keep our noses out of it, we will not escape ruinous economic losses. If the League is to break down, we must at once prepare to fight. Few people seem to realize the desperation to which Europe has been reduced. During the coming winter some of them will look with longing eyes on this rich, fat nation, possessing great surpluses of every human necessity, while they endure inevitable hunger and cold.

"We cannot fiddle while Rome burns. The Allies may themselves ratify this treaty without us, and thus assemble a council of nations of their own in an endeavor to solve the problems of Europe. It would be a council of Europe, and in the midst of these terrible times, considering the debts they owe to us, the material they must have from us or starve, I would rather that we be represented therein lest it become a League of Europe against the Western Hemisphere. A peace without us means more army and navy for us, with the old treadmill of taxes and dangers for us."

Mr. Hoover gives us one concrete stroke of relief which awaits the ratification of the treaty; and it, curiously enough, is one which we all thought not long ago to be of supreme importance, but which we have of late wholly forgotten. It is the disarming of Germany. We think of Germany as being effectively disarmed because she is no longer formidable on the Rhine. But she is formidable—as Mr. Hoover points out.

"At the time I left Europe, a month ago, German militarism had already Pousianism and Bolshevism would ed well-officers army of at least 400,000 men, largely congregated on the Polish frontier, and even defying the government of Berlin. Under the alarm of this danger, the Poles, in the midst of the greatest economic misery that a nation ever knew, have been trying to create an army of 500,000 men for their protection from the Germans on one side and the Bolsheviks on the other. If the treaty is ratified, the German army will be reduced to 200,000 and dispersed over Germany and their extra armament destroyed. The failure of the treaty means the invasion of the Polish state."

This is really a startling bit of news. Few Americans had realized that Germany was still formidable as a fighting power and might precipitate war within the next few months.

### "Catsome"

THE GREEN & GREEN CO.

under conditions which conceivably could win her a decisive and lasting triumph. For the obliteration of Poland between the millstones of Prussianism and Bolshevism would be a first-class German success and a staggering blow to the safety of France.

The present treaty is a compromise. It is the result of hard bargaining and the clash of conflicting interests and ideals. Nobody loves it. France made a most excruciating face as she swallowed it. But it is this treaty or none; and "none" opens the door to a Bolshevik conquest of Europe. And, again, the ocean is only 3000 miles wide.

It is perfectly clear that we must either go in or stay out. If we are going to live in the remodeled world, which is in the making before our eyes, we had better, in self-defense, see that we have a good deal to say about how it is made. We must reduce the dynamite that is to be built into it to a minimum and we must be ready with our oil can when the rough edges that fit badly begin to grind. We cannot afford another war.

## GAME WITH THE LANCASTER TEAM HAS BEEN CANCELED

The scheduled football game between Central High School and Lancaster High School will not be played. The game was to have been played here next Saturday, but was canceled Monday by the Lancaster manager who announced that the team is cancelling its entire season's schedule because a Lancaster player was killed in a game a week ago last Saturday. The game would have marked the

first meeting of these two teams, and was arranged on the application of the Lancaster manager, who said that Lancaster wanted to start athletic relations with the local school. The cancellation of the game leaves Central without a game for next Saturday, unless Coach V. L. Fairies arranges a game within the next few days. High School teams in this vicinity will be appealed to in an effort to keep the day from going idle, and it is expected that their regular Saturday afternoon grid argument will be played as usual.

Coach Fairies is also announcing a shift in his lineup, which will be tried out this week. The change is one suggested by the mentor to strengthen his eleven against possible defeats such as received by the locals at the hands of Washington last Saturday. Coach Fairies' plans were announced to the football candidates Monday afternoon. There was no practice session only some blackboard work being gone through with.

The shift announced involves the ranking of players, now full back, to each of the positions, the changing of Boxwell, tackle, to full back, shifting of LeSourd from quarter back to half back, and Bales from end to half back. Lane is a likely recruit to fill in at end. Fans will watch with interest the success of the shift in this week's practice.

### ★ "DEAD MAN'S CURVE" ★

In a newspaper report of the Coroner's investigation of the fatal automobile accident at "Dead Man's Curve" on the Central Bridge at Cincinnati a few days ago, is the following statement:

"The three men denied that they had been drinking to excess. They said they had partaken of several beers in a Newport saloon.

Tens of thousands of auto mobiles with sober drivers have passed the "curve" in perfect safety.

This car, driven by men who had imbibed "several beers," was wrecked, and two promising young men were killed and three others dangerously injured. Such are the

## Become Slender

A Simple, Guaranteed Method

If you would like to lose weight, from one to five pounds of burdensome fat while eating and drinking all you need, also enjoying life far better than at present, just follow this advice:

Take seven deep breaths of fresh air each morning and evening; after each meal take a little oil of korein; eat all you need, but chew thoroughly, and follow other simple directions of the guaranteed Korein system. Men and women who were waddling around with heavy, sluggish bodies have, in many cases, reported a gradual, agreeable reduction of thirty to eighty pounds, with wonderful benefit to health and figure. This very season is the time to become slender, attractive, vivacious and healthier, very easily. Get oil of korein at the drugists; it comes in capsules, convenient to use and is now sold at before-war low price. Weigh and measure yourself week to week. You can scarcely realize the joy that awaits you in normal symmetrical figure, with good health and longer life. Show others this advertisement.

WOMEN ARE CARELESS

This has been proved over and over again during the war. They overestimate their physical strength and overtax it. Their ambition is commendable, but does not compensate for the hours and days of misery which they suffer from symptoms caused by female ills brought on by overwork. Women who are weak, nervous, despondent, with headaches, backache and dragging-down pains should remember there is one tried and true remedy, that is Lydia E. Pinkham's Vegetable Compound, now recognized everywhere as the standard remedy for such ailments.

Mrs. Mary Martin, of this city, is planning to take a trip to the Pacific Coast and will start the latter part of this month. Her destination is Los Angeles, but she expects to stop enroute to visit her brother at Reno, Nev., and a niece at Oakland, Cal.

Post Commander Charles L. Darlington, and Post Adjutant Omer Tate of Joseph P. Foody Post, No. 95, American Legion, went to Columbus Wednesday where they will be in attendance at the first state convention of the legion, Wednesday and Thursday.

Mr. Darlington and Mr. Tate were the delegates elected by the local Post to represent it at the convention. Vice Post Commander Paul S. Turnbull and Secretary of the executive committee, Paul H. Creswell, also went to Columbus to be in attendance at the convention.

A special rate of one and one-third cents was offered to all delegates, members of the Legion and their families who wished to attend the convention, by the Pennsylvania railroad, and it was expected that a number of other local people would also be present on one or the other days of the convention.

Both the two delegates and Mr. Creswell and Mr. Turnbull motored to Columbus.

PUBLIC SALE OF LAND

Don't forget the public sale of 102.70 acres on October 25, 1919, at 10 o'clock a. m., at the court house in Xenia.

This is a splendid farm about 3 miles east of Xenia on the Hoop road. The landowner's share of the wheat crop—one half—passes to the purchaser at the sale. Possession given March 1, 1920. Appraised at \$200 per acre. Must bring not less than two-thirds the appraisement.

This is an unusual chance to buy a good farm, adapted for all crops. For further information apply to M. J. Hartley, Administrator. adv

## IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and sluggish. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

## REAL COTTON IS RAISED ON FARM AT WILBERFORCE

Real, honest-to-goodness, cotton, has been raised right here in old Greene county.

Prof. Wm. Berry, professor of agriculture and in charge of the farm of the C. N. and I. department of Wilberforce University, experimented with raising cotton this summer, which is now ready to pick.

The cotton raised on the Wilberforce farm is now bursting out and is attracting the attention of many people of this section, who are not used to seeing cotton growing in this climate.

The cotton growing, is a clever and interesting experiment, and shows that the crop could be developed even in this climate.

The cotton is being shown to visitors and Prof. Berry invites inspection of his experimental crop.

The Good Samaritan Class of the Friends church will meet Thursday evening. All members please be present.

## Farm Salesmen Wanted

Prospective farm buyers to the number of 117,000 wrote and called at our offices in America's ten largest cities during 1918.

We have a score of agency points in Michigan and Northern Ohio. Our representatives in these two states sold 66 farms last month.

The requirements of our clients now demand that we establish a few reliable men to act as our representatives in Indiana, Kentucky and Southern Ohio to send us descriptions of farms for sale and show same to our customers.

Experience not necessary but must own an automobile.

Our business is paying capable men \$2,000 to \$10,000 yearly. State all particulars in first letter regarding your age, business experience and if you are a property owner. All communications treated as confidential.

## Making Dough into Doughnuts

is easy compared to turning the doughnuts into dough as did the Salvation Army.

This principle applies with equal force to making men's clothes for while any concern can turn a bolt of cloth into a batch of clothes—it takes high powered ingenuity and much tedious needle work to transform a piece of raw material into the beautifully designed models that we have here this Fall in Michaels-Stern Suits and Top Coats at

## Within 30 Miles of Dayton--

There is scarcely a neighborhood where this association has not depositing patrons.

Why? Because no other form of investment combines in one, the perfect security and the many conveniences which we offer. If it were not safe, it is not likely that we would number among our larger depositors banks, bankers and capitalists, who have the means of knowing. No other investment approaches it for convenience. You can put your money to work any day—and get a part or all of it any day you may need it, with the best rate of interest that can be earned through prudent business.

In 44 years no one has lost a dollar of the many millions entrusted to our care, and there is not even a slight likelihood that any one ever will.

We have a little army of 12,000 patrons to which you should belong. Let us send you a Booklet of Information.

## "I Am Luck"---

Luck—the gift of the fairy wand!

If it came to choosing between beauty and brains and a million dollars in the bank, or Luck—just plain Luck—what mother wouldn't choose Luck.

Luck is another word for Health—the kind of abounding health that never knows when it's down, but only comes back with a bigger wallop.

That's the kind of Health a diet of Good Luck Bread is going to build for your boys and girls if you give it half a chance—by having them eat more, much more of it.

A whole loaf per day for each member of your family is not too much, if you really want to build the kind of health that brings Luck.
